

Unimark Handmaster 90

The Unimark line laying trolley is a robust tool suitable for rapid road markings of all types of hot thermoplastic. The unit is supplied with one 10cm laying shoe and gas regulator, and can be fitted with an adjustable bead dispenser. Simple to use and fully adjustable controls to suit all types of laying conditions the trolley is suitable for local authorities and private contractor.

With a unique quick change rotary laying shoe connection the machine will follow the contour of the road surface and mark within 5cm of the edge. The propane heated tank has a capacity of 90Kg thermoplastic. The quick change screed shoes are available in all sizes from 5cm to 30cm wide.

Unimark operates on policy of continual research and development, therefore specifications can change without notice. Photographs are only representative.
