Unimark Truck Mounted Thermoplastic Road Marking Machines can be supplied as Spray, Extrusion, Raised Rib Profile Marking or a Combination Multi Mark Machine.

The Machines can be supplied with a Single Holding Tank suitable for Mounting on a 7.5 Tonne GVW Chassis CAB and Refilled from a separate support Truck with suitable preheaters.

Alternatively we can supply a Self supporting Machine with Twin Preheaters to feed the holding Tank via our Hydraulic driven Transfer Pump. This Machine will require a 16 tonne GVW Chassis CAB.

The Machines are supplied on customers free Issue Chassis Cab or manufactured on a Sub Chassis Platform for direct mounting on customers truck at destination workshop.

For Raised RIB Profile Marking the customer will be required to fit a Crawler Gearbox. It will also be required to fit dual steering or a video camera system for dual side operation equipment.

Heating system are 12V. Automatic Propane Gas Management or 12V. Diesel oil Burners.

Unimark operates on policy of continual research and development, therefore specifications can change without notice. The images of machines are indicative.
